DATE MAILED: 10/05/2004

Notice of Fee Increase on October 1, 2004

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2004, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" because some fees will increase effective October 1, 2004. See Revision of Patent Fees for Fiscal Year 2005; Final Rule, 69 Fed. Reg. 52604, 52606 (May 10, 2004).

The current fee schedule is accessible from WEB site (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2004 (or mailed with a certificate of mailing on or after October 1, 2004), the issue fee paid should be the fee that is required at the time the fee is paid. See Manual of Patent Examining Procedure (MPEP), Section 1306 (Eighth Edition, Rev. 2, May 2004). If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See MPEP Section 1308.01.

Effective October 1, 2004, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$685.00
 - By other than a small entity..... \$1,370.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$245.00
 - By other than a small entity..... \$490.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$330.00
 - By other than a small entity..... \$660.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

In claim 12, line 41, "validates" was replaced with --validating--.

In claim 12, line 42, "validates" was replaced with --validating--.

In claim 12, line 45, "ascertains" was replaced with --ascertaining--.

In claim 12, line 49, "ascertains" was replaced with --ascertaining--.

In claim 12, line 53, "determining" was replaced with --determines--.

In claim 47, line 22, "uses" was replaced with --acts according to--.

In claim 48, line 60, "includes" was replaced with --includes: --. (colon inserted)

In claim 48, line 65, "orders" was replaced with --orders;--. (semicolon inserted)

In claim 48, line 66, "includes" was replaced with --includes: --. (colon inserted)

In claim 48, line 67, "do not itemize" was deleted.

The following is an examiner's statement of reasons for allowance:

The closest references are: 5,987,429; 5,774,872; and TaxNet Tax Proposal. No reference has the basic structure (a tax calculation server with communication links with a plurality of merchants, banks, and taxing authorities wherein the tax calculation server calculates the tax for transaction at the merchants) that is claimed in independent claims 12, 47 and 48.

TaxNet shows a third party tax determining system connected to the merchant only. The merchant's billing software communicates with the bank, and only the bank communicates with the taxing authority for payments. Therefore it lacks the communication links between the tax server and bank, and the tax server and the taxing authority.

'429 shows a tax calculating computer at the merchant in communication with at least one of the bank and the taxing authority (since it makes payments to the taxing authority). It lacks an independent server communicating with a plurality of merchants, and possibly links to one of the bank and taxing authority.

'872 shows a system where tax calculation is done at the POS. A third party server is in communication with the merchant, bank, and taxing authority. The third party server communicates with the required parties, but does not calculate taxes.

'872 was chosen as the base reference.

Regarding claim 12, all additional elements were found via teaching references shown in the 35 USC 103 rejection, except specific address validation elements requiring that address verification be performed via business rules of the merchant and

wherein those business rules include ascertaining whether the merchant allows processing of partial addresses and if so processing a partial address; and ascertaining if the merchant's business rules allow substitute addresses and creating substitute address, if so, wherein the address as validated by the process is used for tax calculation.

In searching the examiner found address verification/validation of several types but not the specifically claimed method. Address verification returning information regarding the number of address fields which match a credit card was found, but the system does not act on the results; rather the merchant can manually decide whether to complete a credit card transaction. Also, address verification relating to taxes was found. For instance Taxware uses "Verazip", where the state and one other field are entered and it provides a taxing jurisdiction. But no art was found providing the merchant the options claimed. In light of the lack of art, claim 12 and its dependents were found allowable.

The claimed invention of independent claim 47 has a similar basic structure, but relies on different business rules. Here, the merchant selects from business rules regarding when and how to calculate the taxes. As interpreted by the examiner, the claim requires the system to have all recited business rules available for selection by the merchant since the merchant can select any rule and the system must be able to operate according to any combination. Additionally, in a prior rejection in which the examiner determined that a single rule from each of the groups was inherent in the system of the reference, Applicant stressed merchant's ability to select from the recited

business rules. No recitation of these rules was found by the examiner in the art.

Therefore, claim 47 and its dependents were found by the examiner to be allowable.

The claimed invention of claim 48, recites a system operating according a first set of specifically claimed business rules for a first merchant and a second set of specifically claimed business rules for a second merchant, wherein both merchants are in the same state (lines 60-69). The specific combination of six recited business rules was not found by the examiner in his search. Therefore, claim 48 was found allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven B. McAllister whose telephone number is (703) 308-7052. The examiner can normally be reached on M-Th 8-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert P. Olszewski can be reached on (703) 308-5183. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
